

GOD'S MISSION

As followers of Jesus we belong in the one, true story that gives us hope. Right in the places where we live, **God in Jesus is remaking the world.** Our churches are called again to join the Spirit working out THIS story where we live.

GOD IS AT WORK

Competing stories of scarcity, survival or fear are not our story. Instead we are anchored by the Good News that God has raised Jesus from the dead and all creation is being made new. Our churches can step with confidence into the future the Spirit is fermenting.

NEIGHBOURHOOD IS THE PLACE

The Spirit is already at work in our neighbourhoods making all things new. Jesus is present in our churches and in our neighbourhoods. We are invited into God's story right in the particular places we live. This is happening. God is making all things new and our churches can be active participants in this BIG story.

CHURCHES ARE BEING CALLED TO SOMETHING BIGGER

The hope and possibility of our churches today is in their being transformed so that they are joining God in making all things new. Our churches are critical to Jesus' work and God faithfully continues to transform and birth a new future among God's people for the sake of the world.
