

LEADERSHIP PROJECT

We are at a turning point as God's people. Innovative planning is not sufficient to address our current challenges in ministry. The **Leadership Project** will help you rediscover life and hope in your leadership. Step into a different way of leading through learning new practices that will allow you to connect with what the Spirit of God is already doing.

WHAT YOU WILL DO

From these 5 critical **learning goals**, you will choose **one** as your primary focus. You will try out new practices and reflect on what you are doing with a facilitated cohort of peers, all inside the day-to-day reality of your local ministry.
